

In regards to LPFM replacing FM translator service, I feel this decision could possibly disrupt the excellent broadcasting of K-Love Radio. As a resident in a community where K-Love is broadcast, I am grateful to be able to hear programming that is family-friendly, uplifting, and encouraging. K-Love has a positive and encouraging impact on our community, and all across the US. It is in the public's best interest to be able to access the service the K-Love has to offer.
